4th MUNICH CYBERSECURITY CONFERENCE (MCSC)

WannaCry again?

Making our businesses digitally great and cyberproof

February 15, 2018, Munich, Hotel Bayerischer Hof

The fourth Munich Cyber Security Conference (MCSC), organized by Security Network Munich under the auspices of the Munich Security Conference (MSC) and the Bavarian State Government, will take place at the Hotel Bayerischer Hof in Munich on February 15, 2018 on the eve of the 54th MSC.

Addressing top level managers and executives from the private and public sectors, the Munich Cyber Security Conference offers a unique space for exchanging and discussing solutions to the manifold challenges in information and cyber security. Focusing on the role and responsibility of decision-makers, the conference will emphasize effective strategies and agile management concepts to deal with the current threat landscape and will also provide insight into the future evolution of cyber security policies.

Attendees will benefit from personal interactions with executives and practitioners who have recognized that fighting fraud and cybersecurity in the digital age requires new technologies, new ways of thinking, and a new digital ecosystem to tackle cyber risks.

Participants

The Cybersecurity Conference Series of the Security Network Munich attract decision-makers and influencers from around the globe. Past participants include amongst others:
