SCHWARZ

10th MUNICH CYBER SECURITY CONFERENCE (MCSC)

Cyber Security: Who is in Charge? – Dealing with Blurred Lines of Responsibility

16/17 February 2023, Chamber of Commerce Munich (IHK)

Addressing top level managers and executives from the private and public sectors, the Munich Cyber Security Conference (MCSC) offers a unique space for exchanging and discussing solutions to the manifold challenges in information and cyber security. Focusing on the role and responsibility of decision-makers, the conference emphasizes effective strategies and agile management concepts to deal with the current threat landscape and also provides insight into the future evolution of cyber security policies.

Taking place at the Chamber of Commerce Munich (IHK), the event will once again bring together top-level industry management with leading figures from academia and politics to connect, debate, and share insights in driving cyber security to the next level.
